

March 2021 – Newsletter No. 5

Welcome to this new edition of Σ IDERWIN e-Newsletter. People registered to the Special Interest Group and newsletter's subscribers will receive periodically this bulletin to be informed about the main highlights of the project.

Σ IDERWIN Pilot Plant Erection

The signature of the Prevention Plan gathering the occupational health safety and environment plan issues was the start point for the erection of the SIDERWIN Pilot Plant. A time-lapse camera was installed for the monitoring of the works.

Signature of Prevention Plan by John Cockerill, STR Industries and ArcelorMittal

ΣIDERWIN and AISiCal projects

Various European countries and researchers are trying to find new solutions for the sustainable production of minerals and metals and to make the industry more environmentally friendly. Like ΣIDERWIN, AISiCal is one of these projects. It focuses on the co-production of alumina, silica and precipitated calcium carbonate using new sources, while generating zero bauxite residue and zero carbon dioxide.

Project Review n.2 online meeting (M19-M36)

The ΣIDERWIN 2nd Project Review Meeting was held virtually on the **30th of November 2020** due to restrictions caused by the pandemic situation. The new Project Officer, Lucia FERNANDEZ MACIA was introduced to all the Consortium. It was a very interesting and fruitful meeting where the most relevant achievements of the last 18 months were presented.
